Monsey, NY | dassirosenthal@gmail.com | 845.587.1634 | [GitHub](#) | [Portfolio](#)

Highly motivated and detail-oriented software developer with comprehensive training in both front-end and back-end development. Passionate about creating dynamic and user-friendly software applications, I am eager to apply my skills and knowledge in an entry-level programming role. With a strong problem-solving mindset and a dedication to continuous learning, I am excited to contribute to a collaborative team and drive the development of innovative web solutions. Known for my effective communication, collaboration, and adaptability, I thrive in fast-paced environments and excel at building positive relationships with colleagues and clients.

Experience:

Sixth-Grade Math and Science Teacher, 2021-2023

- Designed and delivered engaging lesson plans tailored to diverse student needs.
- Fostered a supportive learning environment, promoting growth and academic achievement.
- Utilized effective communication and individualized attention to facilitate student success.

Tutor, High School Math and Science, 2022-2023

- Assisted students in understanding complex concepts, solving problems, and preparing for the New York State Regents exams.

Camp Counselor/Program Coordinator, Summers 2016-2022

- Demonstrated leadership, collaboration, and planning skills as a camp counselor and head counselor.
- Created a positive and engaging environment for campers, honing interpersonal skills.
- Developed and implemented various activities and programs, ensuring safety and enjoyment.

Education:

Bachelor of Science in Computer Programming and Technology, Woodmont College, Graduating September 2023

- Comprehensive program covering application programming, security, networking, and web development.
- Emphasized hands-on experience and a broad range of programming languages.

Software Web and Application Development Course, The School of Evolving Technology, 2021-2023

- Completed an intensive program focused on developing critical web and application programming and design skills.
- Developed practical applications in HTML, CSS, JavaScript, jQuery, and AJAX

Skills:

- Programming Languages: Python, Java, C#, JavaScript
- Web Development: HTML, CSS, JavaScript, Bootstrap
- Front-End Frameworks: jQuery, React
- Back-End Development: Node.js, Express
- Databases: MySQL, MongoDB
- Object-Oriented Programming (OOP)
- API Integration: Ajax
- Development Tools: Visual Studio Code, XAMPP
- Version Control: Git

Projects:

Developed a dynamic blogging website that enables users to read, create, and interact with blog posts. The website incorporates user authentication to provide a personalized experience and allows users to create their own blog posts and comment on existing posts.
